About the presenter

CASE for Kids staff presents this workshop based on content developed by the David P. Weikart Center for Youth Program Quality, Forum for Youth Investment and High Scope Foundation. Recent findings from the Youth Program Quality Intervention (YPQI), a randomized experimental study, demonstrate that exposure to and use of this content improves program quality in out-of-school time settings. CASE for Kids trainers have been certified to deliver this content. This event, however, is not directly affiliated with or sponsored by any of the organizations that developed it. Nevertheless, the Weikart Center and Forum are pleased that you have selected this evidence-based content to advance your quality improvement initiative.
