## Behavior Management 3.0

Friday, Feb. 19, 2016  
10 a.m. - 12 noon  
6005 Westview Dr.  
Houston, Texas 77055

### Learn how to reform behavior

Behavior Management 3.0 is designed to help participants change their knowledge, insights, skills, behaviors, and attitudes. You will gain a clearer understanding of how reinforcement, punishment, and function are related and how they can be manipulated to effect behavioral change. Basic behavior principles are explained in simple language using real-life examples.

### About the presenter

C. B. Stewart is an educational practitioner and consultant with more than 22 years of experience working in public urban education. He specializes in behavioral interventions and special educational instructional methodologies that are designed to impact both students' academic and behavioral progress.
