

CASE for Kids

Center for Afterschool, Summer and Expanded Learning
A Division of Harris County Department of Education

Training Series

6005 Westview Dr. Houston, TX 77055

Thursday, January 28, 2016

10:00 a.m. – 12:00 p.m.

Register online at <http://wms.hcde-texas.org/>

Workshop No: 17-05465

Engineering for the Non-Engineer

Have you wanted to engage elementary school students in fun engineering activities but been nervous to try? This workshop is for you! During the workshop you will engage in engineering activities as both a learner and an educator. You will learn how to support students as they work through engineering design challenges, and build their problem solving, teamwork, communication, and creative thinking skills. Resources from the CASE for Kids lending library that support engineering will be shared!

The Harris County Department of Education formed the Center for Afterschool, Summer and Expanded Learning (CASE) for Kids formerly the Cooperative for After-School Enrichment in 1999, to mobilize the community to work together to ensure that every child in Harris County has access to an after-school program. CASE for Kids has been endorsed by all 25 Houston/Harris County School Superintendents. After-school programs keep kids safe, help working families, and improve academic achievement.

***Continuing Professional Education (CPE) Credits provided for all workshops.**
