Workshop No: 17-05462

Put Some "STEM" in your December

Learn how you can encourage your students to explore STEM in an open-ended, inquiry-based manner that promotes teamwork and creativity. Activity kits from the CASE for Kids lending library will be highlighted and will bring out the scientist in you!

The Harris County Department of Education formed the Center for Afterschool, Summer and Expanded Learning (CASE) for Kids formerly the Cooperative for After-School Enrichment in 1999, to mobilize the community to work together to ensure that every child in Harris County has access to an after-school program. CASE for Kids has been endorsed by all 25 Houston/Harris County School Superintendents. After-school programs keep kids safe, help working families, and improve academic achievement.

***Continuing Professional Education (CPE) Credits provided for all workshops.**
